SUMMARY

MERN Stack Developer with 2 years of practical experience in building and deploying scalable web applications. Passionate about AI-driven applications and continuously learning emerging AI technologies. Skilled in full-stack development, API integration, and creating seamless user experiences. Actively exploring LLMs, AI automation, and agentic systems to integrate intelligent, high-performance solutions into real-world applications.

EDUCATION

Virtual University ,Pakistan Sept2024–2027
Bachelor of Sciencein in Computer Science *CGPA:3.21*

SKILLS

Languages: JavaScript, TypeScript, SQL
Frameworks: React, Next.js, Node.js, Express.js, NestJS, Prisma
Databases: MongoDB, PostgreSQL, MySQL
Realtime & Networking: WebRTC, WebSockets, LiveKit
Developer Tools: Git, Docker, Postman, AWS, Cursor AI, Jira
SoftSkills: Team-Oriented, Strong Communication, Adaptability, Growth Mindset

EXPERIENCE

Senior MERN Stack Developer – CodeMiners IT & Consultancy Nov 2024 – august 2025
Lahore,Pakistan

- Led development of **production-level MERN applications** from architecture to deployment.
- Built scalable **full-stack solutions** using React, Node.js, Express.js, and MongoDB/PostgreSQL.
- Mentored junior developers and conducted **code reviews**, improving team code quality.
- Integrated **authentication, APIs, and database optimizations** to enhance app performance.

MERN Stack Developer Intern – Khawarizmi IT Technologies April 2024 – October 2024
MERNDeveloper(Remote) *Lahore,Pakistan*

- Assisted in building and maintaining **full-stack applications** using React, Node.js, Express.js, and MongoDB.
- Worked on **RESTful APIs, authentication systems, and database integrations** with PostgreSQL and MySQL.
- Collaborated with senior developers in an **Agile environment**, improving team productivity.
- Contributed to **feature development, bug fixing, and code optimization** for client projects.

Trainee – Full Stack Development (PNY Trainings) October 2023–April 2024
Lahore,Pakistan

- Completed **hands-on training in MERN stack and modern web development**..
- Gained practical experience in **React, Node.js, Express.js, MongoDB, and SQL**.
- Built multiple **capstone projects** showcasing skills in full-stack development and deployment.

PROJECTS

Blog Management Application *(MERN Stack – React, Node.js, Express.js, MongoDB)*

- Developed a **full-stack blog platform** with complete admin-side management.
- Implemented features for **post creation, editing, deletion, and user role management**.
- Built **secure authentication, authorization, and CRUD APIs** for seamless content management.
- Designed an **admin dashboard** to oversee posts, users, and system activity.

Help Log Admin Agent System *(MERN Stack – React, Node.js, Express.js, MongoDB)*

- Created a **truck dispatch tracking system** for admins and agents.
- Implemented **real-time logging of dispatch operations** with driver/vehicle assignment tracking.
- Built **role-based dashboards** for admins and field agents to monitor and update dispatch logs.
- Improved operational efficiency by enabling **automated record-keeping and dispatch status monitoring**.

Circ Marketplace Backend & Admin Panel *(NextJS,NestJS, Prisma, PostgreSQL)*

- Developed the **backend system** for a marketplace application using **NestJS, Prisma ORM, and PostgreSQL**.
- Built and optimized **RESTful APIs** for product listings, orders, payments, and user authentication.
- Designed and implemented an **admin panel in NestJS** for managing users, vendors, products, and transactions.
- Ensured **scalability and security** through structured schema design, role-based access control, and efficient database queries.

Trips Management & Hotel Booking Website *(MERN Stack – React, Node.js, Express.js, MongoDB)*

- Built a **full-stack travel management platform** for hotel booking and trip planning.
- Implemented features for **hotel listings, search, booking, and user authentication**.
- Designed an **admin dashboard** to manage hotels, bookings, and users.
- Ensure d **scalability and security** through structured schema design, role-based access control, and efficient database queries.

Achievement ACHIEVEMENTS & CERTIFICATIONS

Full Stack Web Development Training – PNY Trainings
- Completed hands-on training in MERN stack, including React, Node.js, Express.js, and MongoDB.

JavaScript (Frontend Development) – freeCodeCamp – Certified in **JavaScript fundamentals, ES6, DOM manipulation, and responsive web design**.
